

VISHAL P

Full Stack Developer | React · ASP.NET Core · MySQL
+91 88387 39288 | vishalprabhakaran18@gmail.com | Madurai, Tamil Nadu

PROFESSIONAL SUMMARY

Full Stack Developer at e2o Technologies with hands-on experience building production-grade React applications backed by ASP.NET Core Web APIs and MySQL. Delivered three live platforms — a Hospital Management System, a driver-on-demand service, and a multi-tenant CRM — serving real users across healthcare and enterprise verticals. Comfortable working end-to-end: component architecture, REST API design, relational schema optimization, and deployment. Seeking to bring this breadth to IBM's engineering teams.

TECHNICAL SKILLS

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Ant Design, Bootstrap, React Router, Redux
Backend	ASP.NET Core Web API (C#), Node.js, Express.js, REST API design
Database	MySQL, Dapper ORM, MongoDB
Tools & Libs	Axios, html2pdf.js, jsPDF, Razorpay SDK, Git, Visual Studio, VS Code
Concepts	Role-based access control, server-side pagination, multi-tenancy, GST billing, SaaS subscription flows

PROFESSIONAL EXPERIENCE

Full Stack Developer

2024 – Present

e2o Technologies Pvt. Ltd. | Madurai, Tamil Nadu

- Built and shipped PlusO HMS (pluso.in) — a multi-module Hospital Management System with React front-end and ASP.NET Core API, used live by hospitals across Tamil Nadu.
- Engineered a GST-compliant billing engine: auto-calculates CGST/SGST per line item, generates print-ready invoices via html2pdf.js and iframe-based PDF rendering.
- Implemented server-side pagination and infinite scroll for billing history using Dapper + MySQL stored procedures, reducing page load time significantly on large datasets.
- Developed byposs.com — a SaaS multi-tenant CRM with Razorpay payment integration, 30-day free trial logic, branch-scoped routing, and role-based dashboards.
- Built OnCall Acting Drivers (oncallactingdriver.com) — a service booking platform with React front-end, real-time driver availability flow, and responsive mobile-first UI.
- Created the HRMS module: Attendance Adjustment, Shift Assignment, Leave Management, and Attendance Request — all with spreadsheet-style grids, bulk operations, and PDF export (jsPDF).
- Established reusable component patterns: generic DataTable with filter/sort, reusable Select components (ContactSelect, SupplierSelect, BrandSelect) with API-backed options.
- Collaborated directly with product leads to translate hospital workflow requirements into technical specifications and deliver features on short cycles.

Web Development Intern

2023

Pencil Walk Pvt. Ltd. | Madurai, Tamil Nadu

- Built and maintained web interfaces using HTML, CSS, JavaScript, and PHP on real client projects.
- Gained hands-on exposure to production codebase conventions, version control, and team collaboration.

KEY PROJECTS

PlusO — Hospital Management System — [pluso.in](#)

Stack: React.js, Ant Design, ASP.NET Core Web API, MySQL, html2pdf.js

- Unified platform covering patient records, billing, pharmacy, diagnostics, and administration.
- GST-compliant invoice generation with hospital logo reconstruction from sessionStorage + baseUrl pattern.
- Role-based access control with department-level scoping; cloud and on-premise deployment support.

Byposs — SaaS CRM Platform — [byposs.com](#)

Stack: React.js, Ant Design, ASP.NET Core Web API, MySQL, Razorpay

- Multi-tenant CRM with per-industry branch routing, subscription tiers (trial / paid), and Razorpay checkout.
- Post-signup automation: runPostSetup helper orchestrates industry creation, default config, and role seeding.
- Dashboard with plan-aware feature gating and real-time analytics widgets.

OnCall Acting Drivers — [oncallactingdriver.com](#)

Stack: React.js, ASP.NET Core Web API, MySQL

- On-demand driver booking platform with real-time availability, service area config, and mobile-first responsive design.
- End-to-end: customer booking flow, driver assignment, and admin management panel.

EDUCATION

Bachelor of Computer Science

May 2025

Mannar Thirumalai Naicker College, Pasumalai, Madurai | 70%

CERTIFICATIONS & ACHIEVEMENTS

- Full Stack Web Development — Win Institute, Madurai (hands-on curriculum covering HTML/CSS/JS, React, Node.js, and database integration).
- Ethical Hacking Workshop — practical exposure to cybersecurity principles and penetration testing concepts.
- 1st Prize, Quiz Competition — Intra-department technical event "BOTS".
- Presented EMP Model project at NAAC institutional visit and Tech Campus event.
